PROFESSIONAL SUMMARY

Full Stack Java Developer with **3+ years** of experience building scalable **web and mobile applications** using **Java 8+, Spring Boot, REST APIs, and Microservices**. Skilled in **SQL/NoSQL databases**, **Agile development**, and **CI/CD pipelines**. Proficient in **AWS, Docker, Git**, and passionate about writing clean and maintainable code.

TECHNICAL SKILLS

Backend Skills :	Java 8+, OOPs, Collection Framework, Exception handling, Multithreading, Python, DSA
Framework :	Spring Boot, Microservices, REST API, JPA, Hibernate, Spring Security, JWT, OAuth2.0, Kafka, Docker, AWS, SAP Hybris,
Frontend Skills :	Angular, React, Ionic, Rxjs, HTML5, CSS3, JavaScript, TypeScript, SAP Spartacus
Database :	MySQL, PostgreSQL, MongoDB, Redis, H2
Tools :	GitHub, Jira, Maven, Swagger, GitHub Action, JUnit/Mockito, IntelliJ, VS Code, Postman

EXPERIENCE

Aurionpro Solutions Dec 2024 – Dec 2025
Software Engineer
- Engineered backend services using Java, Spring Boot, and PostgreSQL for high-scale farmer schemes.
- Integrated Aadhaar APIs and payment modules to ensure secure and seamless subsidy disbursement.
- Streamlined SQL queries, applied Redis caching, and boosted system performance significantly.
- Collaborated onsite with clients for requirement analysis, issue resolution, and solution delivery.

Clavrit Digital Solution May 2022 – May 2024
Software Engineer
- Built full-stack applications using Spring Boot, Angular, and MySQL for enterprise use cases.
- Architected reusable REST APIs and refined database structures for improved scalability.
- Contributed to Agile teams working on AI-driven tools and SAP Hybris-based e-commerce solutions.
- Crafted cross-platform mobile apps using Ionic, integrating GPS, camera, and social media features.

PROJECTS

Agri Darshan Dec 2024 – Dec 2025
Java Developer
- Engineered CMDashboard, CMS, and Farmer Lottery modules to streamline scheme execution.
- Integrated Aadhaar Authentication, DDO payment, and Pine Labs POS for secure subsidy and SEED distribution.
- Designed workflow/state-history tables supporting dynamic subsidy rules with full audit tracking.
- Enhanced PostgreSQL performance and added Redis caching to efficiently handle 4+ crore farmer records.
- Worked onsite with department officials to analyze requirements and deliver real-time production fixes.

MotoLensAI Mobile App Sep 2023 – May 2024
Frontend Developer
- Developed AI-powered features using real-time traffic insights to improve road safety and driving decision.
- Implemented Firebase OTP and social login to provide secure, seamless, and reliable authentication experience.
- Strengthened camera and video capture functionality using Capacitor and Cordova plugins across devices.
- Integrated GPS tracking and ensured secure media sharing across platforms with performance and reliability.

Estimation Tool Jan 2023 – Jul 2023
Full Stack Developer
- Integrated JIRA API to support AI-based task time estimation and project analytics dashboards insights.
- Developed RESTful services on AWS handling user workflows task lifecycle validations logging and data access.
- Used binary search techniques to improve performance while processing large datasets efficiently .
- Collaborated with AI and frontend teams deploying dashboards using AWS services ensuring reliability scalability.

EDUCATION

JS Institute of Technology, Firozabad *2021-2024*
B.Tech. in Computer Science Engineering Percentage: **75%**

Government Polytechnic Ghaziabad *2018-2021*
Diploma in Information Technology Percentage: **71%**
